

Prevention and Recovery Services was incorporated in 1965 under the name of National Council on Alcoholism, Topeka Division. In July of 1993, the Board of Directors voted to change our name to Shawnee Regional Prevention and Recovery Services. Our new name is more descriptive of our mission [shortened to Prevention and Recovery Services (PARS) for easier recognition purposes.]

PARS continues to serve Shawnee County as one of thirteen regional prevention centers in the state whose mission is to work with our community to reduce risk factors and strengthen protective factors that influence alcohol and other drug abuse.

PARS' Youth and Family Programs offer hope to hundreds of children, young people and families who are adversely affected by alcohol and other drug abuse. Skilled counselors facilitate groups for at-risk children and young people, as well as facilitate workshops and participate in community coalitions to reduce risk factors and strengthen protective factors that influence alcohol and other drug abuse.

If you would like more information about the services we provide, please call us at (785) 266-8666.

Understanding Addiction

This program is intended to increase the understanding of both chemical and non-chemical addictions. The training includes videos, interactive learning, case reviews and helpful resources.

Professions who may find this workshop useful include: social workers, case managers, addiction counselors, family therapists, RN's, LPN's, LMHT's and CMA's. Certificates of attendance for **6.0 hours** are available for all participants.

Training Objectives:

- Define both chemical and non-chemical addiction using various theories of addiction
- Understand the Bio/Genetic/Psycho/Social factors that influence addiction
- Examine the neurobiology of addiction across the lifespan
- Review addiction in a cultural and family systems context
- Increase awareness about available resources regarding prevention, intervention and treatment of addictions
